

DON & HELEN

French House – December 2016/January 2017

-6 deg. Ice on the inside kitchen window. Like a winter wonderland.

We've just found a bottle with 3 monkeys on it. We were going to have a hot toddy. Just checking it is whiskey. See No Evil, Speak No Evil, Hear No Evil

Yes, the dogs have settled in well and loving new ground to sniff. We have all the heaters on that the electrics will take at any one time. The gas heater is very effective and of course the fire is roaring. Not known it so cold. Even the French are out taking photos.

Trip to the Market

Cold one again this morning. Happy New Year to one and all.

Thick frost and fog. Our French organic chicken for new years lunch.

Black ice strikes in St Ellier Les Bois. Traffic congestion expected.

**Julie says “ Oh, has that car got caught up on the post?
Don “Yes”**

Julie says “Whoops, pj day for you two.

Don “ We have got to go to the vets later to get the dogs passport stamped.

Running low on gas so need to top up. Think that car is the lady's from the the cafe/shop.

Sorry to keep posting photos. We're not good at sitting around so having to entertain ourselves.

Chicken was delicious. Just made stock and soup. We are studying for our helmsmen course.

It's starting to thaw but we are not ever coming again in the winter !
